

How to Disable Common Pop-Up Blockers

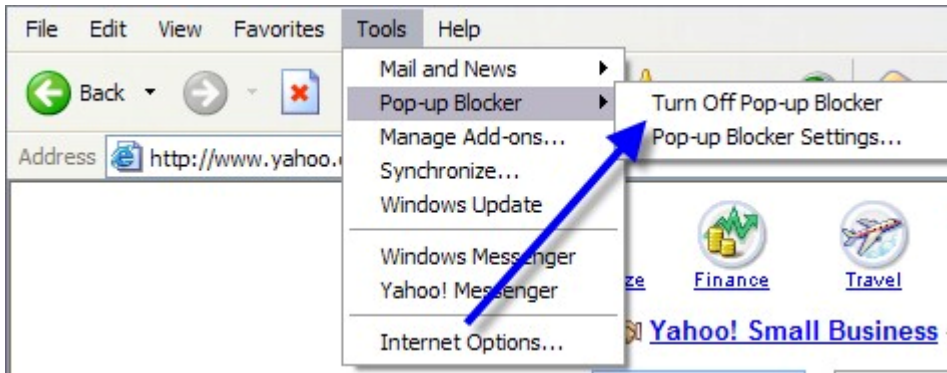

Listed below are some of the more popular Pop-up Blocking software packages and the workarounds that should be followed in order to disable the Pop-Up blocking feature within each of them.

Microsoft Service Pack 2 (SP2)

With the release of Microsoft's Service Pack 2, Pop-Up Blocking is now directly integrated into Internet Explorer. Note that by default Pop-Up blocking is enabled within SP2.

Listed below is the location of the menu within Internet Explorer:

Open Internet Explorer Click on **Tools** menu Select **Pop-up Blocker** Select **Turn Off Pop-up Blocker**

To turn the Pop-Up Blocker back on, you can go back in and recheck the entry to re-enable their Pop-Up Blocker.

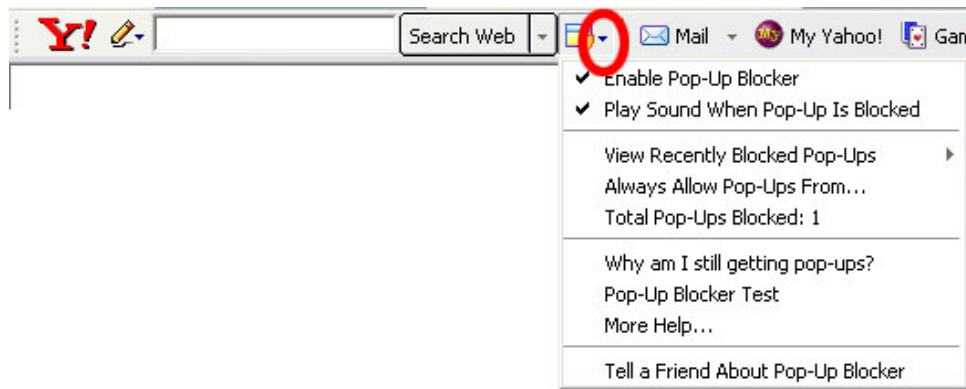

The Yahoo! Toolbar is available from Yahoo! as part of their service's offerings. The graphic image below is how the bar will appear within Internet Explorer:

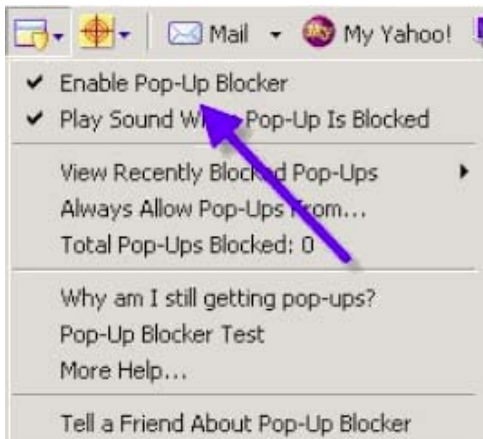

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, Click on the *Down Arrow* to bring up the Menu:

Uncheck the entry **Enable Pop-Up Blocker**.

The toolbar button changes to indicate that the blocker is disabled

To turn the Pop-Up Blocker back on, you can go back in and recheck the entry to re-enable their Pop-Up Blocker.

Google Toolbar

Google has their own brand of toolbar that is very similar to Yahoo!'s. It offers other features on top of Pop-Up blocking, and looks like the following:

The following icon is the Pop-Up Blocker:

To allow pop-ups to appear, merely click on the icon. You should now see the following:

To turn the Pop-Up Blocker back on, you can click the icon again to re-enable the pop-up blocker.

Note: if this is not sufficient to allow pop-up windows to appear, you may need to disable the Google toolbar completely by following the approach below.

Right-click on the toolbar and a Drop-Down will appear with a listing of all of the Toolbars.

Uncheck the entry **Google** to disable the Google Toolbar. To re-enable the Google Toolbar, right-click again in the toolbar area and recheck **Google**.

MSN Toolbar

MSN Toolbar is the latest of the toolbars, but is starting to gain popularity. As with Yahoo! and Google toolbars, it allows other features on top of Pop-Up Blocking. Below is the MSN toolbar:

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, Click on the *Down* arrow to the right of the text to bring up the Menu:

Click on **Allow Pop-ups**. To turn the Pop-Up Blocker back on, you go back in and recheck the entry to re-enable their Pop-Up Blocker.

AOL Toolbar

AOL Toolbar is another fairly new toolbar from one of the big online providers. Like the others, this toolbar offers multiple features, and appears in the browser as follows:

The following icon is the Pop-Up Blocker:

To allow Pop-ups to appear, merely click on the icon. You should now see the following:

To turn the Pop-Up Blocker back on, you can click the icon again to re-enable the Pop-Up Blocker.

Pop-Up Stopper

One of the more popular Pop-Up Blockers available, this software is designed solely for preventing Pop-Ups. It will install an icon in the lower right corner of your Start Menu Toolbar

The following icon is the Pop-Up Blocker:

To disable Pop-Up Blocking, right-click on the icon and a Pop-Up menu will appear with a list of options:

Uncheck the option **Block pop-up ad windows**. To turn the Pop-Up Blocker back on, you can go back in and recheck the entry to re-enable their Pop-Up Blocker.

PopUpCop

Another popular Pop-Up Blocker, this software is also designed solely for preventing Pop-Ups. It installs the following toolbar within the browser:

To disable Pop-Up Blocking, click on the arrow to the right of the badge and a menu will appear with a list of options:

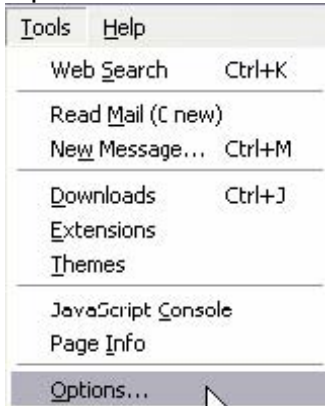

Click on **Disable PopUpCop**. To turn the Pop-Up Blocker back on, you go back in and recheck the entry to re-enable their Pop-Up Blocker.

Mozilla's pop-up blocker is integrated into the browser, much like the pop-up blocker for Internet Explorer. To disable the pop-up blocker:

Open the **Tools** menu and click on **Options**.

The following window will appear:

Click on the **Web Features** icon in the list on the left.
Remove the checkmark from beside the **Block Popup Windows** option.
Click **OK** to close the window.

Once you are finished, you can go back into the menu again to turn on the pop-up blocker.

Netscape's pop-up blocker is integrated into the browser, much like the pop-up blocker for Internet Explorer. To disable the pop-up blocker:

From the **Edit** menu, select the **Preferences** option. The following window will appear:

Click on the arrow beside the **Privacy & Security** option on the left-hand side of the window, to make it display the options shown above.

Click on the **Popup Windows** option.

Remove the checkmark from beside the **Block unrequested popup windows** option.

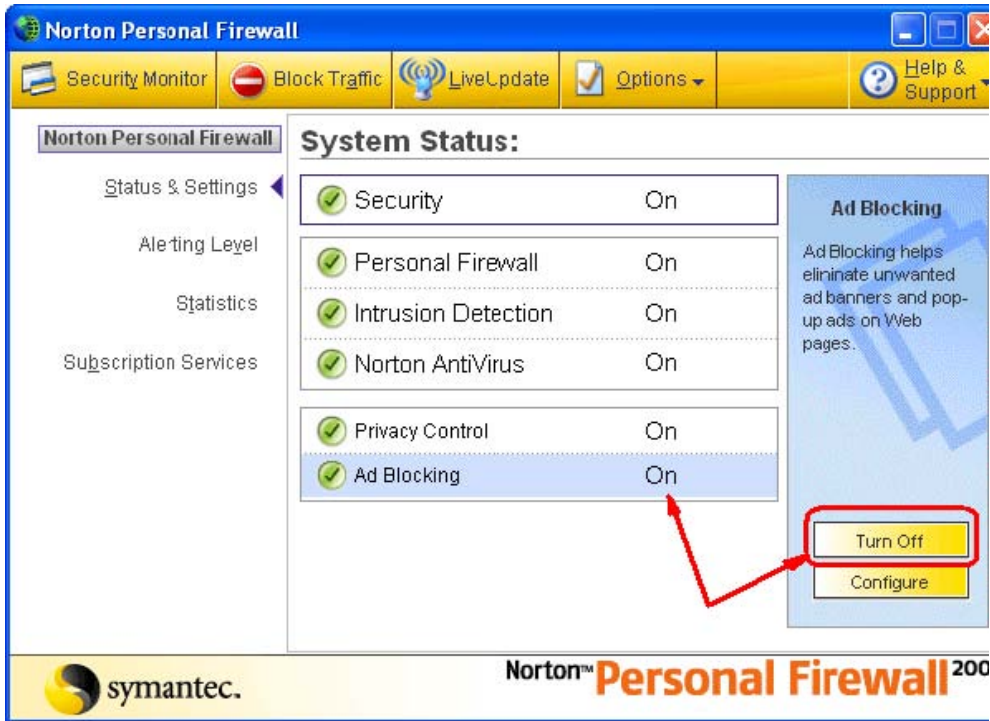

Click **OK** to close the window.

Once you are finished, you can go back into the menu again to turn on the pop-up blocker.

Norton Internet Security/Firewall Pop-up Blocker symantec.

To disable pop-up blocking in Norton's Internet Security/Firewall, do the following:

Bring up Norton Internet Security's/Firewall's main window. This can be accomplished by opening the Windows Start menu, selecting Programs (or All Programs) and then Norton Firewall. A window like the following should appear

Click on the **Ad Blocking** line. Click on the **Turn Off** button. Close the window.

Once you are finished, you can go back into the menu again to turn on the pop-up blocker.

Norton AntiSpam symantec.

The status (popups allowed or disallowed) is displayed on the Norton AntiSpam interface.

To disable popup blocking: In the main window, on the left hand side click **Norton AntiSpam**. Click **Pop-up Blocking > Turn Off**.

To enable popup blocking: In the main window, on the left hand side click **Norton AntiSpam**. Click **Pop-up Blocking > Turn On**.

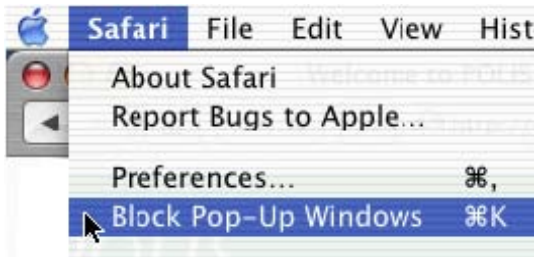

MAC- Safari

Safari's pop-up blocker is integrated into the browser, much like the pop-up blocker for Internet Explorer. To disable the pop-up blocker:

Open the Safari menu and select the **Preferences** option.
In the window that displays, click on the **Security** option.
Remove the checkmark from the **Block pop-up windows** option.
Close the window.

Or, for another version of Safari try

Open Safari
Click on the **Safari Menu**
Uncheck **Block Pop-Up Windows**

Once you are finished, you can go back into the menu again to turn on the pop-up blocker.

Clearing your cache

Once you have configured Ad Blocking or Pop-up Blocking, information may still be blocked on the Web site. This may be because the Web site information is being stored in your Web browser's cache. You must clear the cache for the changes to work.

To clear the cache in Internet Explorer

Start Internet Explorer.

Click **Tools > Internet Options**.

Click **Delete Cookies**.

When you see the prompt "Delete all cookies in the Temporary Internet File folder?" click **OK**.

Click **Clear History**.

When you see the prompt "Are you sure you want Windows to delete your history of visited Web sites?"

Click **Yes**.

Click **OK**.
